CNU 60, 62

Fabrication Aditiva; Open Source; Reciclaje Distribuido; Sostenibilidad

Presentación

Profesor en la [École Nationale Supérieure en Génie des Systèmes et de l'Innovation – ENSGSI](#)-, adscrita al laboratorio de investigación [Équipe de Recherche sur les Processus Innovatifs – ERPI](#)- de la Université de Lorraine en Francia. Ingeniero mecánico formado en la Universidad Nacional de Colombia, poseo un Máster II en Gestión de la Innovación y Diseño Industrial, así como un doctorado en Ingeniería de Sistemas Industriales por la Université de Lorraine. Mi área de investigación se centra en la fabricación aditiva de código abierto como palanca para el desarrollo industrial sostenible. Más concretamente, estoy estudiando nuevos canales de distribución cortos para la recuperación de plásticos reciclados mediante la fabricación aditiva. Adopto un enfoque multiescala para abordar las cuestiones tecnológicas, industriales y territoriales asociadas, al tiempo que favorezco la colaboración con diversas partes interesadas. Utilizo distintas metodologías para mejorar, probar y experimentar nuevos usos. Tengo una sólida experiencia en la dirección de proyectos de investigación (EU H2020, ANR) y de formación (ERASMUS+).

Formación

2013 – 2016

Ph.D., Université de Lorraine, Especialidad Ingeniería de Sistemas Industriales
 Titulo de Tesis: *Methodological proposition to evaluate polymer recycling in open-source additive manufacturing contexts*

Defendida públicamente el 9 de diciembre de 2016 en Nancy ante el jurado:

Rapporteurs:

- Prof. Nicolas PERRY – ENSAM, Bordeaux - France
- Dr. Salim BELOUETTAR – LIST, Esch-sur-Alzette - Luxembourg

Examineurs:

- Prof. Joshua M. PEARCE – MTU, Michigan - USA
- Prof. Nadia BAHLOULI – Université de Strasbourg, Strasbourg - France
- Prof. Mauricio CAMARGO (*Directeur*) – UL, ERPI, Nancy - France
- MdC. Hakim BOUDAUD (*co-directeur*) – UL ERPI, Nancy - France
- Dr. Sandrine HOPPE (*co-directeur*) – LRGP, Nancy - France

2012 – 2013

Master II. Management de l'Innovation et du Desing Industriel, Université de Lorraine, FR

Tesis: *Proposition d'un Protocole d'expérimentation standard pour la fabrication additive open source*

2004 – 2012

B.Sc. Ingénieur Mécanique, Universidad Nacional de Colombia, Bogotá, Colombia

Experiencia profesional

- 2024 – ... **Profesor Asistente** *Université de Lorraine*, Nancy – France
- 2022 – 2023 **Investigador** *Université de Lorraine*, Nancy – France
- 2021 – 2021 **Investigador** *Université de Technologie de Troyes*, Équipe InSyTe (Antiguamente CREIDD) Troyes – France
- 2017 – 2021 **Post-doctorante** *Laboratoire ERPI*, Université de Lorraine, Nancy – France
- 2010 – 2011 **International trainee** *Empresa MIP Engenharia S/A* Belo Horizonte, Brazil
Proyecto: Ayudar a crear un plan estratégico para el proyecto de internacionalización del PIM.
- 2008 – 2009 **Estudiante auxiliar de ingeniería** *Universidad Nacional de Colombia*. Bogotá - Colombia
Projet: Diseño y construcción de una máquina de fundición centrífuga para fabricar cilindros de fundición ASTM 40.

Competencias

-   Lengua materna  C2  C1  B2
-  CAO (Solid-Works, Onshape), Matlab, Data analysis / visualización, R, HTML, CSS
-  Investigación, Zotero, L^AT_EX and Rmarkdown/Quarto publishing.

Liste de la Production Scientifique
